The World Street Food Congress is a first of its kind. If you want to **expand your borders and learn from the experts**, this is the best venue we've been all waiting for.

Here at the Dialogue, you will hear the speakers discuss topics that show you **opportunities in the space of street food entrepreneurship, culinary tourism and job creation** in this industry. Not limiting to those topics alone, the line of successful speakers will share with you their expertise and give you tips and tricks you won't hear elsewhere.

Your ideas are important! Through the **Pitch Box**, you will be given the chance to **pitch your ideas** to the movers and shakers of the F&B industry and possibly have your ideas realized. You will be given the chance to take the Pitch Box stage, 3 minutes of sharing your points and letting the world professional audience and media respond, reflect and hear you. Now if you have a business goal, the World Street Food Dialogue will inspire you with lots and lots of ideas.
